All Mt. Moriah active congregation members are registered as members of the Family Life Center and are listed in the center's computer database. Active congregation members are determined by three things: being on the congregation rolls for a minimum of one year; faithful attendance at church and bible study; and the use of the envelope system for tithes and offerings. Basic membership is free to active congregation members. All individuals that are not active congregation members are required to purchase basic membership. It is policy of the Family Life Center to serve all people regardless of financial situation. A sliding scale will be used to determine discount membership fees for households that have a low-income level. These discounts only apply to the family and Single-Parent membership types. Other membership types will not be discounted. Membership fees can be paid annually or monthly by bank draft, check, or credit card. Further, memberships are continuous memberships with no contract minimums.
